

MILL BROOK INDUSTRIES, INC.

MBI's Seating incorporates features that give you comfort, durability, value, and style.

S150 Series

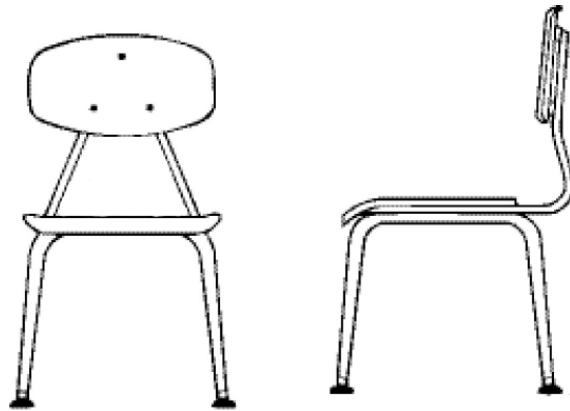

3/8" Solid Plastic Classroom Chair

The S150 Series is the chair-of-choice-for schools nationwide. The seat and back of the S150 are solid 3/8" Melamine Resin. Nickel-plated steel rivets extend through the chair's frame, seat, and back for superior strength and holding power.

- **SEAT & BACK:** Attach to frame with Chrome rivets fastened through the metal frame utilizing high impact contoured spacers for correct positioning and shock absorbency to ensure seat comfort. An exclusive-3/8" thick solid-plastic seat and back construction representative of the S150 series chairs, meets any classroom environment or budget needs.
- **FINISH:** Bright nickel chrome plating meets all requirements for no-corrosive and abrasion resistant finish.
- **FRAME:** 16-Gauge frame with signature crossover leg design, 14-gauge continuous tube twin back supports creating gooseneck back design and swaged legs accent the strongest frame design in the industry.
